

Dear Kansas Chamber Member:

The Kansas Chamber would like to assist you, our members, with your health care needs. We are offering a new Cancer/Specified Disease/Intensive Care program designed and marketed by All American Associates of Topeka, Kansas and underwritten by Loyal American. We gave this product our endorsement after careful evaluation. We have worked with All American Associates for many years and many members have worked with them as well.

This special program is designed to alleviate the out-of-pocket expenses related to many catastrophic diseases as well as cancer. The program doesn't compete with your major medical coverage and is totally compatible with any hospitalization coverage you may have. It also provides tax-free dollars to ease the expenses of an intensive care confinement. The positive points of this plan include:

- It is of no cost to you, the employer.
- It provides first dollar coverage if you or your family is stricken by cancer.
- It has the financial strength of Loyal American, an A rated company.
- Continued professional service from All American Associates will be provided.

While you probably have outstanding health insurance benefits for your employees, this opportunity would allow them to compliment their coverage. I would encourage you to listen to a brief professional presentation which will help you make an informed decision concerning this endorsed program.

Sincerely,

Kent D. Beisner  
President & CEO
